

# Summer 2019 Q3 Spec Guide Updates

## INSTRUCTIONS

We have printed for you Spec Guide pages with all the new Summer product introductions and any other critical changes since our 2019 Spec Guide was updated in April. Please pay attention to the page numbers and swap out the pages in your existing Spec Guide for these re-printed pages containing newer information. A few pages with less critical changes were not printed. The changes are listed below if you'd like to mark them in your Spec Guide.

A pdf of the complete Spec Guide containing every update is available on the Dealer Website. If you have any questions, please call your Territory Manager.
